

I am writing on behalf of K-Love. I listen to this station every day. Many of my friends also listen. I understand that there is the possibility that K-Love could be replaced by a LPFM station. I beg that you reconsider this. In the world today, it is difficult to find positive and upbeat television , radio, etc. Our minds are filled with negativity. This is the main reason I listen to K-Love. It provides me with a positive, fresh outlook on life. My two children listen, also. My oldest, 5 years old, knows a lot of the songs and sings along. When I listen to K-Love, I am not worried about what the lyrics of the songs might say or what a radio personality might insinuate. PLEASE don't take away my K-Love! There are not many of these stations left!
